### AT THE LAST MEETING...

Jim is going bigger. Here is his 40% Laser from AJ Aircraft. It will be powered by a DLE 222 twin that I can't wait to hear running. Wing span is 123 inches.

Kent showed his rare Gee Bee R-3 racer, This is a model of a plane that was never built. Power is an unusual RVC90SP engine. The engine has a rotating cylinder.

Bob Heitkamp brought his turbine Boomerang Sport. Bob coated the covering with Orange Glo furniture refinisher. The results was amazing.

**THE NEXT CLUB MEETING IS ON FEBRUARY 7TH IN JIM KELSO'S GARAGE AT 7:00 P.M.**

**OUR NEXT EVENT IS TO BE DETERMINED SO COME TO THE MEETING AND HELP US PLAN IT....**

A few weeks ago I decided I wanted one of the Prestige Cessna 170's from Flex Innovations. It arrived from Sarasota, FL about a week after I ordered it. When I unpacked it there was

damage to the fuselage. One of the strut attachments was broken off. A quick call was made to the seller and a week later a new

fuselage arrived. Things went smoothly. It fits in the back of my Escape so it will make it's debut at the next show and tell. BJ

- VI. New Business:
  - Schedule of Events: The club members discussed activities they would like to see this year. Dennis and Jim will put together a list of events to be presented at the next club meeting.
